VOLUNTEER APPLICATION FORM

Thank-you for your interest in supporting our work!

We would like to know more about you, your skills, time available and the areas of our work you are interested and able to assist with.

CMR PE provides social work services to many families in need of care and protection. We develop programmes for children and families to mitigate the escalation of child abuse and neglect. We aim to provide real and long lasting solutions to child protection and care within communities in Port Elizabeth. Whilst you will not become directly involved with the families we assist, you can provide invaluable assistance by supporting our needs through our many support services.

Some examples are listed below:

- Assistance with practical maintenance of the building – in and around the office.
- Checking our vehicles once a month – ensuring that they are in good condition.
- Qualified therapists (play therapy, psychologist etc.) offering time to assist.
- Retired teachers etc. to assist as volunteers to be trained to present programmes.
- IT person – maintenance of electronic equipment.
- Taking photos / videos of our events.
- Some-one to assist with the development of a Webpage for the CMR Eastern Cape.
